Limited to  
3 - 6 lamps  
per qualifying store  
(refer to Price List)

Time stands still in this beautiful country scene handpainted on a shade made from an original Beaumont mould. Robin Spindler's reverse painted design features an historic covered bridge surrounded by blooming trees painted on the outer surface of the shade. The three dimensional effect is created with a majestic mountain range and vibrant rainbow handpainted on the inside of the shade.

*Fenton  
Handcrafted  
Artistry*

Each handcrafted Fenton lamp is born in the fiery furnaces of our plant in Williamstown, West Virginia.

Using traditional techniques and tools from the rich history of American glassmaking, our talented artisans transform sand, soda ash and lime into beautiful works of art for generations to enjoy.

The blower shapes the red hot glass with his breath, the finisher adds a flare and crimp, and the decorator creates hand-painted works of art which are fired for permanent brilliance.

Each piece reflects the history, excitement and craftsmanship inherent in its creation.
