Where Glassmaking Comes to Life

AN EXPERIENCE THAT NEVER GROWS OLD

Since 1905 the Fenton name has been synonymous with the highest quality art glass, skillfully crafting and producing timeless works of art in a manner rarely seen today: by hand.

It began with the dreams of brothers Frank and John Fenton when they started Fenton Art Glass as a decorating firm in Martins Ferry, Ohio. In 1906, brother Charles joined them, and they broke ground for a glass factory at its present site in Williamstown, West Virginia.

Four generations later, the Fenton family and our extended "family" of dedicated master artisans, continue to produce some of the most desirable and innovative art glass in the world.

A family tradition since 1905
