

a Fenton moment

Catalog Exclusives

Offered exclusively through this catalog – two keepsake treasures in exotic Burmese glass, which contains pure gold in its formula. Each piece is handpainted with the "Dragonfly Dalliance" motif designed by Robin Spindler. The Vase has dragonflies amidst delicate blooms ... and the bashful Puppy awaits his master's call. These items are individually numbered and inscribed with the signature of a Fenton family member.

Approaching our 100th year, the Fenton Art Glass Company represents American handcrafted glass artistry. We are known for our wide range of colors, handpainting and handcrafting. Three generations of Fenton family members are active in the business and proudly continue an American glassmaking tradition. Special event planning to celebrate our anniversary has begun!
