## Please join us as we celebrate our 95th Year!

The year 2000 marks the 95th anniversary of the Fenton Art Glass Company which was formed in 1905 as a glass decorating company in Martins Ferry, Ohio. Brothers Frank and John soon envisioned their own glassmaking factory when they experienced trouble obtaining glass from other companies. Two years later, they produced their first piece of glass in Williamstown, West Virginia on January 2, 1907.

After the death of Frank L. in May of 1948, the team of Frank M. and Bill Fenton led the factory through significant growth for nearly four decades. Today, eight third generation family members and two fourth generation members oversee the development and growth of Fenton Art Glass.

### Willow Green Opalescent . . .

Our Historic Collection for 2000 was inspired by our Florentine Green stretch glass from the Roaring 20's. We've added opalescence for soft white edges and an iridized satin finish.

Available in historic patterned pieces or hand-painted with a wistful Angel's Blush floral with soft petals and a sheer pink center.

## Empress Rose

This bluer side of pink blends beautifully with a variety of current home decorating trends and continues to be among Fenton's most popular colors. Alluring and romantic, it is radiant alongside an array of prints and florals. Handpainted "Daisy on Empress Rose" is a dainty chain of daisies on a soft satin textured finish.

### Handpainted Lavender Petals

Deep lavender blooms with shimmering pink centers nod happily in the sun. Each flower is handpainted on French Opalescent glass that is heat struck to create a lovely spiral. Violet rings and handle complete the handmade artistry.

Brothers Frank L. and Bill Fenton led the Fenton company from 1948 - 1986, when the presidency was passed on to the 3rd generation. Frank is Company Historian and Bill is Chairman of the Board. The Hobnail pattern dominated the Fenton line during those years.

## Nostalgia

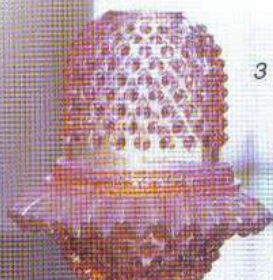

### Champagne Opalescent Hobnail

The classic Hobnail pattern with an iridescent Champagne shimmer is new for 2000. Hobnail, which is well known and loved by collectors, was first introduced in the late 1930's. It became a very important part of the line beginning in 1950. With the current American interest in simpler, 1950's styles, a reintroduction of this timeless pattern was a must.
