# Countersign Commemorating our 95th Year!

Back in 1905, when my grandfather, Frank L. Fenton, and great uncle John founded the Fenton Art Glass Company, their passion for creating beautiful art glass became a reality. Adventurous "glass pioneers," they were always experimenting with new decorative techniques or unusual glass formulas. Today, that same pioneering spirit and joy of creating glass artistry is shared by the Fenton family and our "extended" family of talented and dedicated employees. Please join us as we celebrate our 95th year.

Available on the order blank no charge - 9963

The year 2000 marks the 95th anniversary of the Fenton Art Glass Company which was formed in 1905 as a glass decorating company at Martins Ferry, Ohio. Brothers Frank and John soon envisioned their own glassmaking factory when they experienced trouble obtaining glass from other companies. Two years later, they produced their first piece of glass in Williamstown, West Virginia on January 2, 1907.

After the death of Frank L. in May of 1948, the team of Frank M. and Bill Fenton led the factory through significant growth for nearly four decades. Today, eight third generation family members and two fourth generation members oversee the development and growth of Fenton Art Glass.

# Lotus Mist Burmese

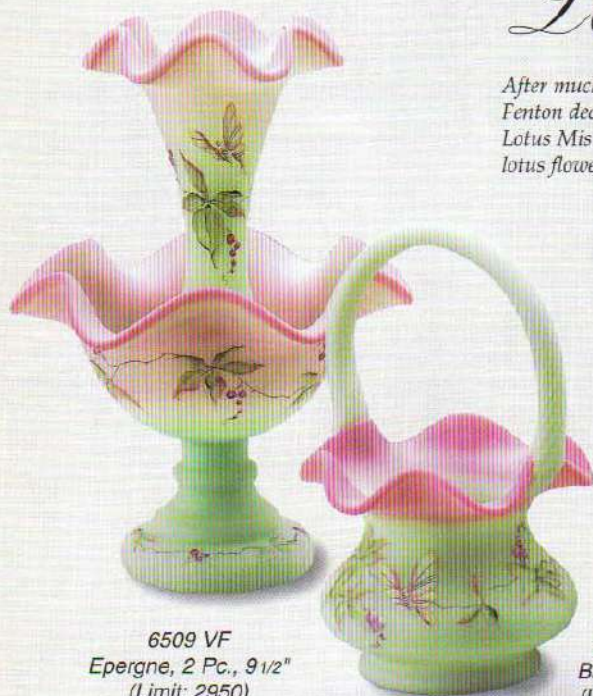

After much success in re-creating Frederick Shirley's Burmese and Blue Burmese formulas, Fenton decided to go a step further and develop a completely new Burmese formula . . . Lotus Mist Burmese! This soft green color, edged in deep pink, mimics the lovely Asian lotus flower.

The Berry and Butterfly pattern is a Martha Reynolds creation. This Asian influenced design features shimmering iridescent paint and a lilting butterfly of renewal.

## *Willow Green Opalescent*

As fresh as a newly bloomed spring meadow to stimulate the senses. Our new Willow Green is based on the Florentine Green stretch glass from the early 1920's . . . with an opalescent effect that reflects a hint of yellow when exposed to different variations of light. Kim Plauché designed the twistful Angel's Blush floral. A sheer pink center on the soft petals makes this offering a natural complement to our Champagne Opalescent glass.

## Cranberry

Cranberry is the premier non-limited glass offered by Fenton. Its long history makes it a prestigious and collectible gift. The creation begins with pure gold in the batch, which is then wrapped in a layer of crystal glass. Optic patterns begin to form as the glass is blown through the various "spot" moulds to conform to a particular shape and pattern. Team work is crucial in the creation of Cranberry glass . . . each piece will be handled by at least 17 skilled craftsmen.

Sentimental Victorians shared their deepest feelings in the special language of flowers. Each flower had its own meaning in this delicate art of communication. ## The Medieval Legend of the Gift of Happiness

Knights of Yore returned from the Crusades bearing beautifully decorated shoes for their loved ones. Because the slippers had magical powers to ward off evil and bring great happiness, they were given as tokens of the highest esteem to very special people. Fenton revives this lovely tradition with the Secret Slipper. Each is handpainted and comes giftboxed with the written legend included.
