F E N T O N

1993 Fall Lamp Special

Function and Design – Accent lamps are jewelry for your rooms. Select from colors that coordinate with every decor or hand-painted works of art to add a distinctive personal touch to your home.

Own a classic – Fenton lamps are rich in handcrafted American heritage. Each is mouth blown and carefully formed by hand. Each decorated lamp is signed by the artist who painted it. Function and design—created by some of America's finest craftsmen.

**Handmade in the USA
Since 1905**

In an age of mass production, Fenton Art Glass remains unique, reflecting the charm and graciousness of another age. Each piece begins as a fiery gob of molten glass and is created with pride by master craftsmen using techniques and tools that are centuries old.
