## Decorating Designers

Fenton Art Glass is proud of its award winning team of decorating designers. The two have brought home a total of 5 awards from the Society of Glass and Ceramic Decorators including Martha's Best of Show in 1992. The two attend trade and antique shows, study design trends and experiment with new materials and techniques as they strive to bring you fresh, exciting products each season. They work closely together providing tremendous energy to the design process.

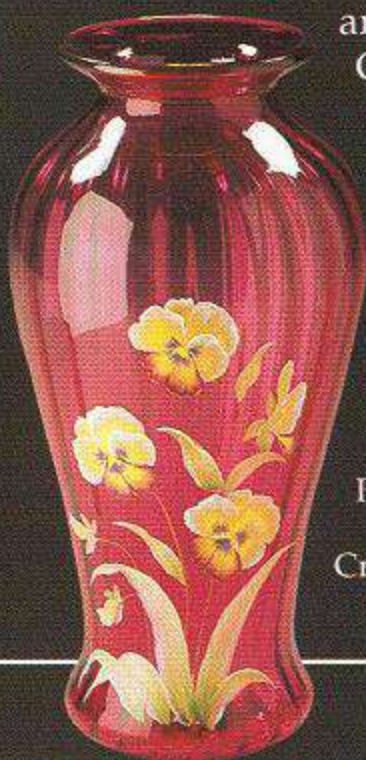

### Frances Burton

Frances Burton has been a Fenton designer since 1984 and was promoted to supervisor of the Decorating Department in 1991. While she has a full time job keeping the department running smoothly, Frances has found the time to design some of the most exciting products recently offered by Fenton. Good examples of her work are the Reverse Painted Lamp and the Rosalene Perfume presented for Connoisseur 1993. In this catalog she has developed Pansies on Cranberry, Rose Garden, Violas on Petal Pink, Vintage on Plum, and Vining Garden on Seamist Green.

Frances revolutionized Fenton's handpainting on transparent glass with her Vining Garden design and has kept us moving forward to sleek, elegant florals.

### Martha Reynolds

Martha Reynolds has been a Fenton designer for three years and we never cease to be amazed at the breadth of her talent. Martha enjoys experimenting with new techniques and materials and has created products in a wide variety of styles.

For the 1993 Connoisseur Collection she designed the beautiful Favrene Amphora in a stand, Ruby stretch bowl, and the Victorian Roses Vase. Martha's designs for 1994 include the Mary Gregory series, "He Loves Me, He Loves Me Not", Autumn Leaves on Black, Primrose, "Language of Love" Anniversary, Cottage and Lilacs. This incredible showing of diversity in style culminated with the Autumn Leaves design. Martha found a way to take a Jacobean motif normally confined to a printing technique, and translate it into a handpainted design.

## The Artistry of Cranberry and Cranberry Opalescent

Truly the most unique of glassmaking accomplishments! Fenton Cranberry is achieved by a lengthy process requiring artistry, skill, technology and team work. Working together as a team, it takes up to 26 skilled craftsmen to make a basket or pitcher!

1

Cranberry glass begins with long Ruby Rolls containing gold which are made and heated in ovens for approximately 12 hours. A small bud is then snipped off of the roll and attached to the end of a hollow blow pipe. It is smoothed and shaped to give it a uniform shape for even color distribution.

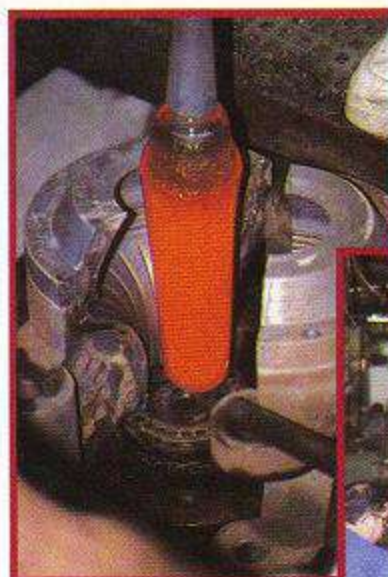

2

The Ruby bud is then taken to a glass tank where a layer of crystal glass (or French opalescent glass for Cranberry opalescent) is gathered over top. The blocker then rolls the molten gob in hot soapy water to give it uniformity and lubrication. He then blows the first air bubble into the glass.

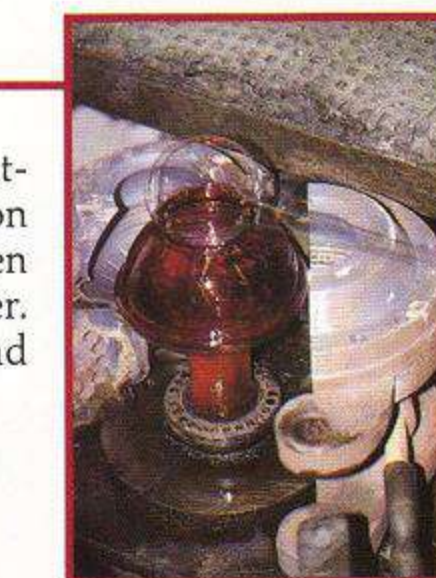

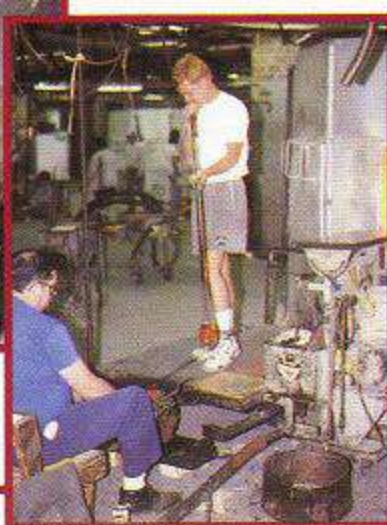

3-4

The gob is then reheated and blown into a spot mould to put the optic pattern on the piece. (4)-The opalescence comes out when the French opalescent is heated. So the protruding pattern receives more heat than the sunken areas causing the molecules to grow and turn white. This gives us the opalescent pattern.

5

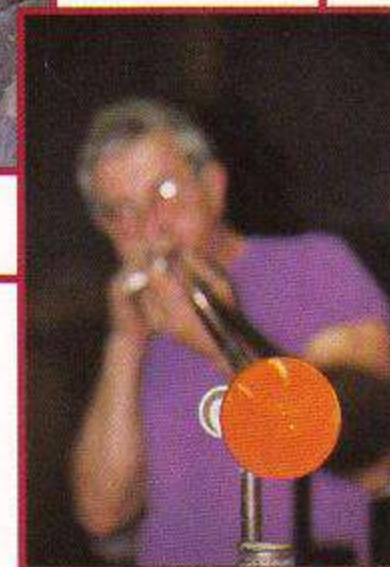

After the optic pattern has been put on the piece, it is taken to the main blower. It is reheated and

dropped into the final forming mould and blown out into the shape of the mould.

6-7

Once the piece has been blown into the forming mould, the bubble (called the overblow) is scraped off the top and reheated. It is given to the finisher who puts the ruffled crimp on the edge. It is then given to the handler to apply the handle if it is a basket or pitcher.

F E N T O N

## *Fenton Designer Cathy See*

Cathy has been our designer since January 1991 and has made a big impact in a very short time. Her proficiency in drawing and sculpting can be seen in new products such as the Radiant Angel, Christmas Tree, Guardian Angel, and the Feather Vase which we offer in almost every color.

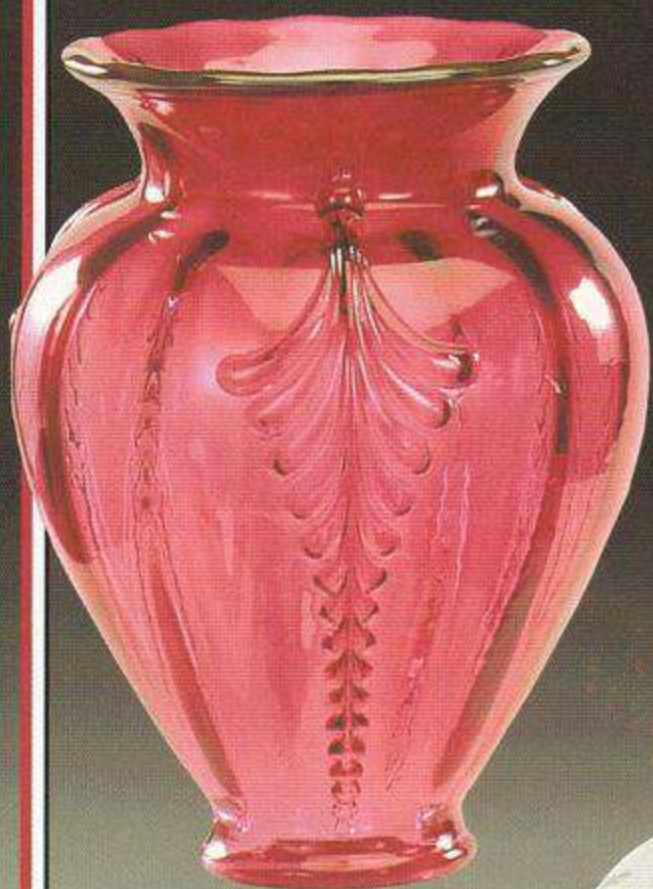

Cathy also worked out the technique to do reverse painting which was offered for the first time in 1993. Let's let Cathy tell you about it.

"I especially enjoyed studying the Handel reverse painting technique. Figuring out this difficult style was like solving a puzzle." Cathy spent long hours perfecting the technique and teaching it to our decorating designers.

One of her constant challenges is designing products which can be released from an iron mould in one piece. It takes special skill to "see" the parting lines of the mould before she ever puts pen to paper or hands to clay. She must also understand how a piece will look in transparent glass and the effects light will have on the design. Will the pattern on the back compete with the pattern on the front? Will it appear larger or smaller than desired when completed?

Designer Cathy See

## Autumn Leaves on Black

Sleek black glass is highlighted with metallic Autumn Leaves in the newest creation by Martha Reynolds. Each piece has been hand-formed and fire polished to a high gloss to reflect the sparkle of these new decorating paints.

Autumn Leaves makes a perfect accent for the new natural interiors. Like Autumn Gold, it brings earthtones to life.

As with all Fenton decorations, Autumn Leaves is handpainted and signed by the artist.

## Autumn Gold

Inspired by the deep red-gold tones of an amber jewel. Fenton has captured this beautiful color in a lead-free version of the amber colored glasses made in France.

Autumn Gold Opalescent is a cased glass with French opalescent gathered over top of Autumn Gold. The glass is then blown into a ribbed optic mould, chilled, reheated and blown to its final shape. It is the chilling and reheating that "strikes" the rib pattern a lovely translucent white.

## *Violas on Petal Pink*

A fresh look for a perennial favorite! Every viola is painted by hand including each tiny stamen. Frances Burton designed the leaves in several shades of green and touched them with violet for depth.

## *Pansies on Cranberry*

For over 100 years Americans have been carrying on a love affair with Cranberry Glass. We've added a new dimension to our most collectible glass by applying pure gold pansies with velvety touches of cream and violet. Each flower is then touched with crystal ice for its sparkling finale. Designed by Frances Burton for all who love Cranberry Glass.

## Cranberry

Cranberry enthusiasts find Fenton's Cranberry to be authentic and exceptional in quality. Made with pure gold formula the way it was done 100 years ago, and fire struck, the rich cranberry hue is heightened when encased in a layer of sparkling crystal. Another example of why Fenton is America's finest crafter of colored glass.

## Guardian Angels

What greater gift can there be?

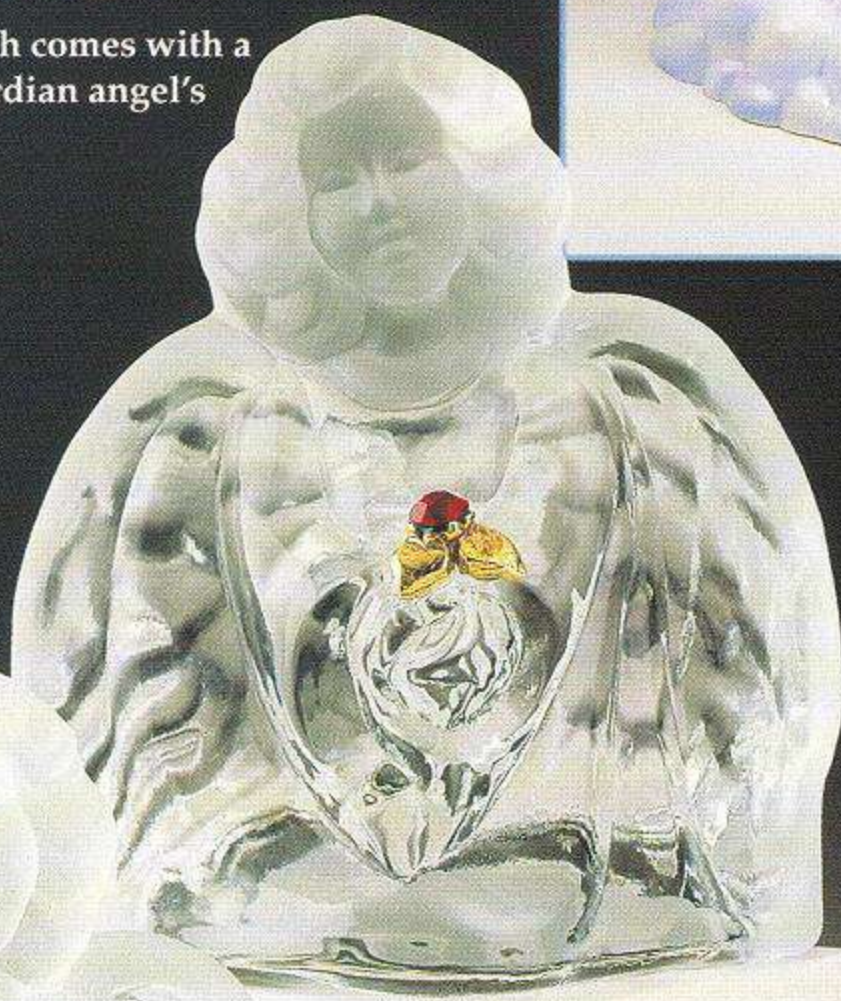

A personal GUARDIAN ANGEL for a child, a friend or a loved one in your family. To protect and guide through life as God's messenger.

With birthstones for each month . . . handsomely displayed on handmade crystal . . . by Fenton, of course. Could easily be THE BUY OF 1994! Order enough! They'll fly off your shelves "like they have wings."

*Guardian Angels . . . a heavenly chorus of good wishes.*

Each angel of the month comes with a tag expressing the guardian angel's magical qualities.

## *Anniversary* *"The Language of Love"*

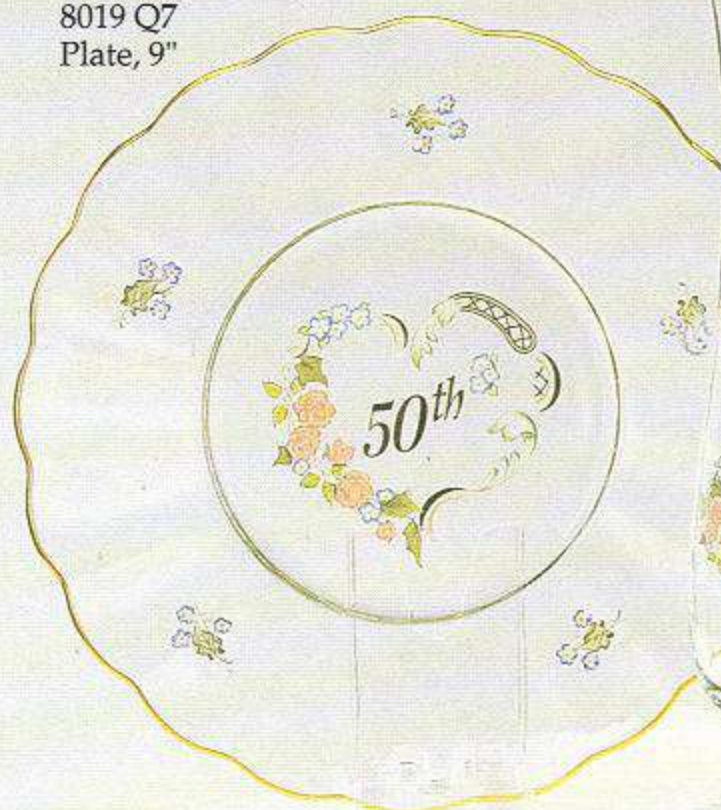

Save 3% - 0569 AS  
22 Pc. "Language of Love" Assortment

(Refer to order blank  
for assortment make-up.)  
Includes a counter sign and  
brochures.

Sentimental Victorians shared their deepest feelings in a special language of flowers. Each known flower had its own meaning in this delicate art of communication. A young man would send a bouquet of jonquils if he desired "a return of affection." The lady might respond with snowdrops indicating "hope", or red tulips "declaring love." If she wasn't pleased with the suitor, yellow tulips would tell him it was "hopeless love."

"The Language of Love" revives this beautiful tradition in a loving Anniversary message. Each of the flowers entwined to form a heart tells a story:

The Rose represents Love. The Ivy signifies Marriage, Fidelity and Friendship. The Forget-Me-Nots denote True Love.

This heart of love was created to represent the enduring strength in your marriage and is given to celebrate the day you were wed.

## *Fuschia*

Gold based like Cranberry, Fuschia packs an extra punch of color. We begin with pure gold ruby and cover it with Rose Magnolia, our newest opalescent color. The result is a rich, resplendent color with patterned white accents.

Each piece is first blown in an optic mould which creates the pattern. It is cooled and reheated to coax out the white color. Only then is the piece blown into its final mould and shaped by hand.

## Rose Garden

Cottage style with up to date details. Notice the crisp, neat bands on each piece as well as the tiny rosebuds sprinkled over the surface. Frances Burton designed this pattern to coordinate with Fuschia.

Delicate blushing highlights each hand finished edge, reminiscent of the white striking on each Fuschia piece. Together they make an irresistible display of unique Fenton Art Glass.

## Plum and Vintage

True Plum is a challenge to the glass chemist, but rich and rewarding when captured in glass. Plum demands attention every step of the way; from measuring the colorants to selecting shapes that will showcase its brilliance. Like all red-toned glasses, Plum is sensitive to changes in heat, causing slight variations in color from one piece to another.

Frances Burton designed "Vintage" (shown on page 7) to enhance the elegant Plum. Layering deep violet, cream, gold and soft green, she has created clusters as rich as the glass itself.

## Handpainted Lilacs

An expert craftsman deftly spins a molten ring of Plum on the edge of pristine Milk Glass. Art in motion, he smooths it to an even circle before quickly paddling the piece to its final shape.

Martha Reynolds has taken this clean, white surface and used it to showcase the essence of a Lilac's beauty. Notice the subtle changes of color within each clustered flower.
