Frosty Friends

Our popular trio — Mr. and Mrs. Snowman and the penguin — bring some new friends to help them celebrate the season. Their playful puppy is ready to romp in the fresh snow with our warm-hearted polar bear. A new decoration, featuring the Friends dressed in decorative sweaters of soft blues and handpainted stars, makes for a great seasonal display during the winter months. A background of colorful pines and fresh snow also gives this grouping a little holiday flavor.

Limited Edition Santas

Kim Planché designed a luscious forest of seasonal pines for our "Northwoods Santa." Miniature trees trim his suspenders and blend beautifully with his evergreen shirt. A carefully handpainted deer brings the northwood scene to life that adorns his knapsack.

Each Santa is numbered and signed by a Fenton artist and limited to sales through 11/15/01.

Our "Morning Star" Santa reflects the crystal blue skies of the North Pole. Stacy Williams added brilliant pearl stars to his pastel blue robe in addition to sparkling glitter sprinkled throughout the fluffy white trim of his coat.

Angels

Iridized Pink Chiffon, Crystal and Ice Blue project a rainbow of striking colors throughout these angelic beauties. A skirt of violet petals and iced wings adds lift to Stacy Williams' delicate design. A delightful collection for all seasons.

Nature's Spirit Angels

Angel collectors will be enchanted with Stacy Williams' design of beautiful magnolia blossoms and berries draping the blushed skirts of each angel. A 22k gold plated lovebird adds a further sense of peace to these remarkable guardians. These handcrafted angels are numbered and limited to sales through 11/15/01.

Emerald Green

Deep, rich Emerald green — a jewel-toned color that creates beautiful accents for home decorating — reflects the traditional warmth of the holiday season.

The luminous glow of the moon overlooking the "Vermont Sky" is the perfect setting for hot chocolate gatherings in front of a roaring fire. Coordinate this pattern with "Woodland Frost," along with Emerald and Crystal trees over sparkling faux snowflakes or blanket snow, to create an inviting winter atmosphere.

A backdrop of French Opalescent glass iridized with a satin finish allows the forest of evergreens to project against a frosty background of sparkling snow. This interplay of color and texture is a Fenton hallmark. Robin Spindler's popular winter motif of blustery pines returns with several new pieces that include a fawn and two new pieces rung in Emerald green.

Playing off this stylish pattern, Kim Planché designed a picturesque "Crystal Stream" framed with a scroll of holly leaves and red berries accented with an Emerald green ring for our Family Signature vase.

Christmas Star Nativity

First Edition

Fenton sculptor Jon Saffell has skillfully captured the beauty of Mary and Joseph as they pause to give thanks for the miracle that has been bestowed upon them. This beautifully stylized Nativity set is handcrafted in serene Crystal.

Kim Planché developed a simple yet elegant design of lead stars — made from white sparkling glitter. Shades of winter sky blue have been air brushed along the outer edges of the gown for added appeal. The brilliance of Crystal shines brightly when displayed under a spotlight or warm halogen lighting. A luminous star backdrop is also available separately to set the tone for this tender family moment.

In addition to the signature plate, this fourth series includes a hurricane lamp, fairy light, bell, and egg. Beautiful metallic colors shine brightly on a Cobalt background in this final holiday installment.
