and Aaron Stewart
take great pride
in their work.

Fenton Art Glass is proud to offer the next new and exciting chapter in our history!

The talented and skilled hands of employees in our Cameo Carving Division are adapting the designs and imagery of internationally

recognized Cameo Artists Kelsey Murphy and Robert Bomkamp to bring Fenton Artisan Originals to collectors everywhere.

As these wonderful Cameo creations unfold, we invite you to witness some of the most thrilling developments in the 2000 year history of Cameo Glass!

By combining an extraordinary array of Fenton Glass colors - including opalescent, heat sensitive, and striking glasses - as well as the innovations of master glass artisans Dave Fetty and Frank Workman - our talented team will continue to reveal the magic of this rare art form...and you, the collector, will enjoy a front row seat!
