Frank L. Fenton  
Founder  
1880 - 1948

Frank Leslie Fenton graduated from high school in Indiana, PA, as class valedictorian in 1897. After considering a teaching career, he was employed as a glass decorator at The Northwood Company, where his brother Charles also worked. Frank lacked formal art training, but he was talented and enthusiastic. Before long, he was in charge of the decorating department.

By early 1900, Frank had left Indiana, and he subsequently worked at the Jefferson Glass Co. in Steubenville, Ohio; the Bastow Glass Co. in Coudersport, Pa.; and the H. Northwood Co. in Wheeling, WV. Having had the unsettling experience working at four different glass companies in seven years, he discussed starting a business with his brothers Charles and John. In an interview decades later, Frank said, "My particular work was in the matter of design, and then I got the idea that if I could do this work for an employer, I certainly could do something for myself."

As the story goes, John asked, "How much money do you have?" When Frank said he had about \$280.00, John replied, "Good. Between the two of us, we have \$284.86. Let's get started." They deposited these funds in the Wheeling Dollar Bank on May 4, 1905, and the Fenton Art Glass Company was born.

The firm decorated glass in Martins Ferry, Ohio, during 1905-06. In the fall of 1906, they broke ground for a glass manufacturing plant in Williamstown, WV. Glass was first made there on January 2, 1907.

A family tradition begun in 1905 lives on. An artistic and creative man, F. L. Fenton strove to develop new and unusual colors and treatments to keep Fenton in the forefront of the handmade glass industry. His pride and enthusiasm for handcrafted glassware has been carried down through the second, third and fourth generations of the Fenton family who help carry on the tradition begun in 1905.
