

Fall 2000 Showcase Dealer Exclusive

"Butterfly Courtyard" on Mulberry
The exotic Mulberry glass color was first made in 1942, but sold for only six months due to the difficult glassmaking process. It was reintroduced into the Fenton line after additional development in the late 1980's.

Mulberry is created by covering gold ruby core with Azure Blue glass, using a special glassmaking technique to create the subtle color transition.

Exclusive to Showcase Dealers, this limited edition vase is hand painted with a pattern of golden butterflies fluttering outside a garden gate as they embrace the arrival of summer. Designed by Robin Spindler.

Each will be inscribed with the signature of Don Fenton.

Strictly Limited to 1950 Pieces
