

"Proud to be an American!"

Fenton honors all the American men and women who proudly serve their country. Featuring pieces with a special focus on our most recent victory, Operation Desert Storm.

Light Amethyst Carnival

★ 1991 LIMITED EDITION OFFERING ★

Light Amethyst Carnival

Iridescent Glass was first developed in the mid 1800's in Europe. Fenton is known as the originator of Iridescent Glass (also known as carnival glass) in pressed patterned ware in the United States and made the first pieces in 1907. The original carnival was made in different shades of amethyst, from light to dark, as well as other colors. Fenton began to reissue Carnival Glass in 1970 in dark amethyst and other colors such as ruby and cobalt blue. This is the first time this beautiful light amethyst has been made since the early years of the company.
