President's Message

Dear Members,

Recently, as I sat contemplating Summer's passing and Fall's beginning, my musings led to what changes I would make in household decorating for the Fall and Winter holidays. My mind's eye cataloged the many colors of Stretch Glass, and which would be appropriate to each season and holiday.

For Spring, and the Easter holiday, favorites are pastel pink, ice blue, ice green, violet, and white. Summer features sunny vaseline, emerald green, and bright blue. The Fourth of July calls for Stretch in patriotic red, white, and blue.

As Fall approaches, its muted colors of amber, olive green, and smoke, are highlighted by shimmering marigold, tangerine, and grecian gold. Then all of these earth tones are overshadowed by the brilliance of royal purple, ruby red, fiery amberina, and emerald green used for Christmas decorating.

To all of these colors, and more, we can add opaque and slag variations, and punctuate them with sophisticated black.

(President's Message Con't.)

My reflections have inspired me to begin making Holiday plans beginning now, instead of waiting until November. As a first step, I send my best wishes to each of you for a happy Thanksgiving, with much to be thankful for; a Bright and Merry Christmas, and a Happy, Prosperous, and Healthy New Year.

Sincerely,

Joanne

In Sept. I received a letter from Kitty and Russell Umbraco of Richmond, CA. and it's a coincidence how it ties in with our President's message this month inasmuch as they, also, mention how they use various Stretch pieces when entertaining company and proceeded to mention what types of foods they put on the various dishes such as salads, desserts etc. They also called to attention the October issue of Better Homes & Gardens, page 123, which pictured a dessert on a white Stretch glass plate. I looked this up and it is in color and really is a beautiful example of our white Stretch so anyone who has this magazine will want to look at this I am sure. It's too bad it doesn't identify the plate the dessert is on (Stretch Glass), but the article was promoting desserts! In the same letter they write as follows:

"We had "Christmas" last night when we received a perfect mint green Dugan Windflower nappie. Have one with a small flake on the rim, but were so pleased to find a perfect one. They are hard to find.

Have been seeing the ads to promote the SGS club. Glad to see them as so many people don't know about the glass or club."

Editor's Note: On the front page of the Newsletters below the Logo, you will notice "Volume---" and "Number---". With changes in Editors during the past couple years, through oversights, these numbers were not carried out in proper sequence. With this issue we are now "back on the right track" so to speak. We regret this error.

Joanne Dolby writes an interesting observation. In March she and Eldon attended a large antique sale at the Fairgrounds in Columbus, OH. She writes it was one of the largest antique shows they've seen, that there must have been a thousand dealers with displays, as it took them four hours to see all of it. This, of course, included all types of art glass but they also saw some good-sized displays of Stretch, so there is Stretch Glass out there to be bought. It wasn't in vain for them as they found a lovely blue Stretch Glass 10 $\frac{1}{4}$ " candlestick and a Moriaga salt and pepper at a fairly good price. Along with this, they encountered various other collectors they knew so enjoyed meeting them.

Joanne asks if anyone has ever noticed in WARMAN'S 14th and 21st Antiques & Collectibles books, that they feature a 5" Stretch Glass White Vase for \$325.00! And she adds "Aren't we all lucky to have such expensive pieces and, of course, we all know it is in error".

The following was received from Elinor H. Siar of the Rainbow Diamond Depression Glass Club, Indiana, Pa. She writes as follows:

"Enclosed please find several cards advertising our RAINBOW DIAMOND GLASS CLUB SHOW & SALE. Please include this information in the Stretch Glass Newsletter, and pass the information along to the groups. We would be glad to have anyone come to our show. GUEST at the show will be Don Thomas O'Connor, Editor of the Glass Collector's Digest. I'm enclosing information about him, should you wish to include it in advertising. Thank you for passing along this information."

On the following page you will see the article on DON THOMAS O'CONNOR and also a printed copy of the card she enclosed containing all the pertinent information.

Don Thomas O'Connor was born on August 31, 1942 in Duluth, Minnesota. He was raised in Duluth, graduating from Denfeld High School in 1960. Attending Gustavus Adolphus College in St. Peter, Minnesota, he received the B.A. degree (cum laude) with a major in sociology in 1964. From 1964-68, he was a student at the Lutheran School of Theology--for two years in Rock Island, Illinois, then an internship year at Trinity Lutheran Church, Galesburg, Illinois, and the last year on a new campus in Chicago.

In 1968 he enrolled at the Claremont Graduate School in Claremont, California, receiving a Ph.D. degree in religion and society (social ethics) in 1972. From 1972-75, he was an assistant professor of religion at Marietta College, Marietta, Ohio. He was a parish minister in the Presbyterian church for the next ten years. In 1985 he went to work for Richardson Printing Corporation and now is editor of Glass Collector's Digest, a bimonthly magazine devoted to all areas of collectible glass. He is also co-author of a newly published book entitled Lotton Art Glass from Antique Publications.

In 1967 he married Vivian Sundermann, originally of Carroll, Iowa. They have two children, Mark (17) and Christine (12), and, aside from one year in Pennsylvania, they have made their home in Marietta, Ohio for 18 years.

The following letter was received from new members, the Hackemans of Manassas, VA. and we are so pleased they saw fit to send this for the newsletter. I decided to have it printed just as received.

Dear Mildred,

My wife and I are new members of the Stretch Glass Society and recently received the convention issue newsletter. We're writing to share the tales of our shopping for stretch glass and also to inquire about listing some items from our "want" list in hopes another reader has them for sale. By way of introduction, our collection consists of approximately 200 pieces, including 2 punch bowls - red and blue. Some of our recent finds include a green "grape juice set" (tankard pitcher and 6 tumblers) shown in the Fenton book, an amethyst "pen holder," a pink center handled server, a white cheese compote that matches perfectly the cracker serving plate with indent that we have had for some time, a blue cake stand and a blue center handled server, a

2

Chinese yellow footed console bowl (Fenton #108), a green saucer, a green footed oval bowl with dolphin handles and a pair of candlesticks that also double as vases, an "olive green" covered bon bon compote and a tangerine console bowl. We travel the east coast during the summer and have found stretch glass appearing almost everywhere. Some at reasonable prices and other pieces at outrageous prices.

Now, to our want list - the number one priority at the moment is punch cups and the other 2 Fenton punch bowls - green and white. I understand punch cups are super rare - does anyone know why? We would certainly like some to go with our bowls. We have many of the Fenton dolphin fan vases, but we lack red, amethyst, and white. We also have a number of the covered (Fenton) bon bons (#643 in the catalog reprints) but again we are missing red, white, and amethyst. We have a single white handled ice tea mug in the Imperial pattern "Chesterfield" and would like to find others as well as a pitcher to

3

match. Finally, we have some single candles that need mates - maybe another reader can help. These include:

Fenton # 649 in Wisteria (see Heacock I, fig. # 329) - ours does not have the pearl base and is 10" tall.

We have the same candlestick in Blue but it is only $8\frac{3}{8}$ " tall.

We also have a single candlestick in Chinese yellow stretch that I can not find pictured anywhere - it is $9\frac{1}{4}$ " tall, the base is a square shape, but with a scalloped edge rising to scalloped, urn-like top.

Finally, we are looking for a single vase-like stretch bell-twist candlestick (US Glass ^{also} made these style in satin finish).

We look forward to meeting fellow collectors and attending conventions in the future. Any one have suggestions for good shopping areas or flea market (for stretch glass)?

Sincerely,
 Cal Mackeman

Our Treasurer, Augusta Keith, sent the following item along with a colored photo which I am sorry the pretty color doesn't show in print but at least you can see what the vases are like. Her letter follows:

Dear Mildred,

Thanks to our daughter, Barbara, I'm the new owner of a beautiful vase in "Peacock Blue". Barbara discovered the vase in Virginia.

This vase has a sloping top 11" high in front and 12" high in back. There are 10 edges around top. Barbara's smaller vases are not sloping tops and have 8 edges. Best way to describe it is with a picture.

I've heard there are 5 sizes (somewhere). Now to research this "find". Plan to look for other gems this winter.

Sincerely,

Augusta
