A New Color - A New Pattern

We expect 1959 to be another record year for Fenton.

The new color, Topaz Opalescent, (the antique trade calls it Vaseline), is a beautiful blend of yellow and green fluorescence which just can't be reproduced on paper. When you see it, we're sure you'll agree it's THE color for '59.

Cranberry Coin Dot

CASED GLASS

Real coin gold is the magic that makes Cranberry Coin Dot our most luxurious glass. From a carefully measured handful of coin gold thrown in the molten glass at just the right moment, comes the clean, singing ruby color. Here, coin shaped, it sparkles through the white and overflows in the graceful flutings of vase and bowl edgings.
