The Fenton Art Glass line for 1960 is like a good cake — it can always be made a little tastier by adding the frosting. These pieces are our frosting to sweeten the Fenton line for your Christmas selling. The cake won't be complete without the frosting and we like these additions so well that we're sure your fall orders for Fenton won't be complete without them.

Our stocks of Fenton glass are not as high as we'd like to have them but we'll make you a promise — "Orders placed by August 15 will definitely be shipped on the date requested." See your nearest Fenton representative now.

By the way, **No Prices Have Been Increased!**
