Important Instructions

(please read before placing orders)

This catalog will help you sell more Fenton Glass. Please use it to place your orders between calls by the Fenton salesman. We hope that you will let the catalog be the salesman's assistant and that it will serve you well.

Each shape and pattern offered by Fenton is pictured here. Some pieces are made in several colors. The price list/order blank will list every item and the colors made.

EASIER RECEIVING AND PRICING—All Fenton ware is preticketed and contains the retail price, item number and color.

The ware number, color code and item description are also stamped on each carton to facilitate checking in shipments and for easy and accurate inventory control.

We have tried to make our packing as clean and convenient as possible. When you unpack your order, start with carton #1, as we have tried to arrange your invoice in order by carton number and content.

We ask that, when you are unpacking Fenton orders, to be sure that each carton is completely empty when transferring merchandise to the sales floor. Cardboard partitions make it easy to miss hardware and small glass parts packed in the same carton.

ROUTING OF SHIPMENTS—We will follow your suggested routing as long as the thru-rate can be protected and service can be arranged with that particular carrier. Otherwise, we will have our traffic department use its best judgment in routing your shipment the best way.

CLAIMS FOR DAMAGE IN TRANSPORT—All of our shipments are carefully packed by experienced packers in strict accordance with packing methods approved by the various carriers. Should there be breakage or loss in transit, the carrier is liable, and neither you nor The Fenton Art Glass Company is required to suffer a loss. IF DAMAGE IS EVIDENT, POINT THIS OUT TO THE DRIVER AND MAKE A NOTATION ON FREIGHT BILL AS TO SPECIFIC DAMAGE WHEN SHIPMENT IS RECEIVED. It is necessary, however, that you report such damage (including concealed damage) to the carrier in writing within 15 days of delivery and request an inspection report from them showing the extent of the loss. This inspection report becomes the basis for your claim, which should be filed promptly. If you require assistance in filing the claim, we will be glad to help you.

Periwinkle Overlay

An elegant combination of those things Fenton is famous for; Milk Glass and rich color. All overlay pieces are blown after the gatherer has covered a Milk Glass core with Fenton's newest color—Periwinkle Blue. To create these lovely pieces, our glass technologist must carefully control each glass to ensure that one will not cool or contract before the other. The careful pride of hand craftsmanship is evident in each of these beautifully finished pieces.

Dusty Rose

A most popular color in 1984, Dusty Rose is an excellent example of why Fenton is known for the most beautiful glass colors in the market. An unusual color to capture in glass, Dusty rose is deep and rich. We remind you that it is a dichroic color which changes according to the light source. We recommend natural or incandescent lighting . . . or deluxe warm white fluorescents. (Your whole store will look better too.)

Blossoms and Berries

Romantic Country at its best! In a society that values handcrafts, "Blossoms and Berries" fills these qualities perfectly. This lovely pattern can only be created by hand-painting each delicate blossom and berry one by one. The soft blushing further enhances its charm as well as its value. Truly an American handcraft.

The Farm

A new concept in decorated glass from Fenton. Michael Dickinson has created a beautiful farm scene and depicted five different views of the farm on seven decorative accessories. Done in his own distinctive style, these collectors' pieces present an art gallery showing when displayed together. Obviously handpainted, each is a signed work of art.

Frosted Asters

This decoration on blue satin glass holds a special place with many Fenton collectors. Unique in base color, its fresh-looking flowers are created with tiny, quick brush strokes to achieve their spidery appearance. Small particles of glass are applied by hand for the added "frosting."

Cobalt Marigold from the original Fenton formula.

Last year's offering was so successful, we were prompted to continue the Cobalt Marigold treatment—but on all new shapes! Each piece was selected for its ability to show off the lovely iridescent treatment.

We especially direct your attention to the Garden of Eden plate and bell. Designed by Hal Reed exclusively for Fenton, each depicts the temptation of Adam and Eve while God hovers above in warning. Could well be the most sought after of all Collectors' Plates! Both are a *must* for Fenton Carnival and Plate and Bell collectors.
