Star Flowers on Gold Pearl

★ 1992 LIMITED EDITION OFFERING ★

Each flower is carefully handpainted with enamels just as they were 100 years ago. Touches of deep burgundy enhance the fire in the Gold Pearl finish.

Historic Collection

The lustrous satin patina on the finished piece is a hallmark of the earliest Fenton glass. Gold Pearl can only be created by skilled glass craftsmen in the age old tradition.

Assortment

Includes one
each of all
items except
for the lamp
and the
water set.

★ 1992 LIMITED EDITION OFFERING ★

A fiery treatment gleaned from historic
glassmaking techniques.

Gold Pearl begins with an opalescent formula rich
in cerium and titanium. Each piece is formed from
a molten gob of clear glass which is formed, cooled
and returned to the flaming glory hole to develop
its pearly white edges.

The glass is continuously reheated in the glory
hole as the metallic oxides are applied and the
final shape is created.
