*Cranberry Opalescent  
Heart Optic*

Limited to Sales through February 14, 1993  
These special Valentine's limited editions begin with Gold Ruby glass made with pure gold. It is encased in a layer of French Opalescent glass and then blown into an optic mould to provide the heart pattern. The heart pattern protrudes and when reheated, the outer portions of the pattern receive more heat than the sunken areas, causing the molecules to grow and turn white. The piece is then reheated and blown into the final forming mould.

Bud of Gold Ruby on end of hollow blow-pipe.

Blocker blows in the first bubble of air.

Piece being dropped in final forming mould for blowing.
