

Stiegel Green Stretch

The Stiegel Green color developed in 1933 is combined for the first time with the stretch glass treatment so popular from the 1920's. Stretch glass is produced by spraying with metallic salts and carefully reheating to a satin finish. Most pieces are then flared or crimped in some way causing the iridescent skin to "stretch."

Stiegel Green Stretch...an exotic glass treatment from the past.

Mother's Day 1994
"Loving Puppy"

Martha Reynolds has captured the unconditional love between a mother and child in her design for Mother's Day 1994.

Each plate, bell and clock is made of opal satin glass which is carefully handpainted by one of the creative artists at Fenton. It is signed by the artist, fired, and carefully packaged in a gift box with the Fenton Silver Limited Edition Seal. Limited to sales through April 30, 1994.
