## LIMITED EDITION BURMESE LAMP

Limited to 2 to 4 lamps per qualifying store.  
(Refer to Price List)

Burmese is among the rarest and most prized glass treatments collected by glass connoisseurs. It was first developed in 1885 by Mt. Washington Glass Company. The lost art was redeveloped by Fenton in 1970 after years of testing. Burmese is made with pure gold and uranium to achieve the delicate balance of creamy yellow and blushing pink.

Each detailed work of art is completely handpainted and signed by the artist. Designed by Martha Reynolds.

## OWN A CLASSIC

Fenton lamps are rich in handcrafted American heritage. Each is mouth blown and carefully formed by hand. Each decorated lamp is signed by the artist who painted it. Classic beauty created by some of America's finest craftsmen.

### BLOCKER

The Blocker blows the first air bubble into the glass.

### BLOWER

The Main Blower drops the reheated glass into a mould located at his feet and skillfully blows it into the shape of the mould.

### HAND DECORATOR

The Hand Decorator carefully handpaints the glass with an oil based paint containing finely ground glass which is fired on for permanence.

The Finisher crimps the top of the lamp for a signature Fenton look.
