

Introducing...

Artware[®]
FENTON

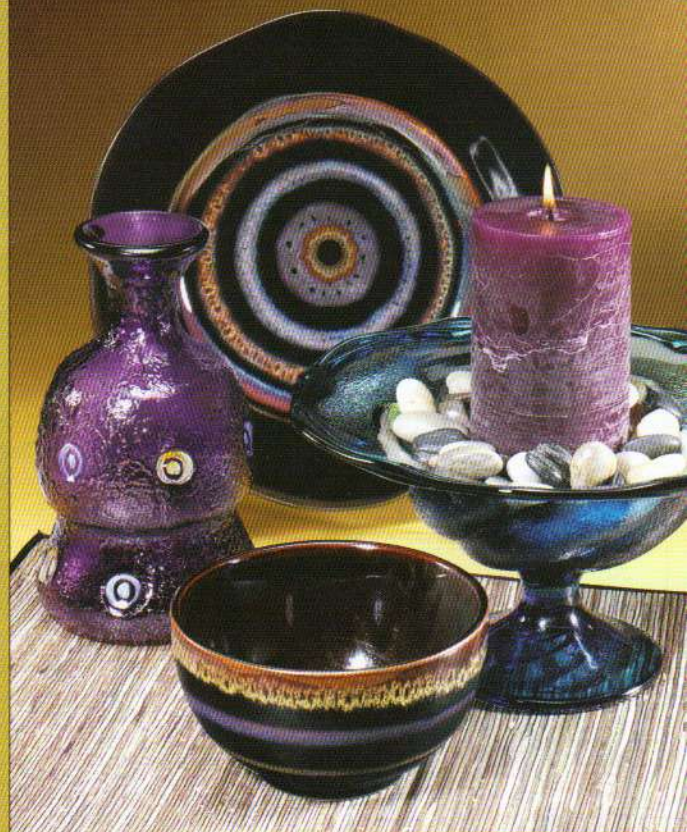

Fun and functional dinnerware and gifts
from the Fenton Design Team

FireWorks

Like colorful minerals drawn from the earth, this handmade collection glows with natural beauty. Three firings through a kiln are required to achieve the artistic blend of colors. Reactive glazing separates the paint colors into droplets of texture while the final glaze ensures food safety in use.

As in all fine handmade ceramics, each piece will vary in color and texture due to the reactive glazing process. Made of high quality stoneware, the collection is food safe, oven safe and dishwasher durable. Imported.

Fenton glass colors of Autumn Gold, Aubergine and Indigo Blue are the perfect complement to these luscious mineral tones. Patterned swirls are thick with texture on the bowl, candy box and candle plate. All of the glass is artfully handmade in the U.S.A.

Frolics

Fenton designer Suzi Whitaker is crazy about Christmas! *Frolics*, her cheerful dinner and gift collection, brings smiles of delight. Each piece is handpainted with visible brushstrokes in the swirls, candies and dancing trees. Bright contemporary colors energize the holiday spirit. Suzi smartly included items perfect for year round entertaining.

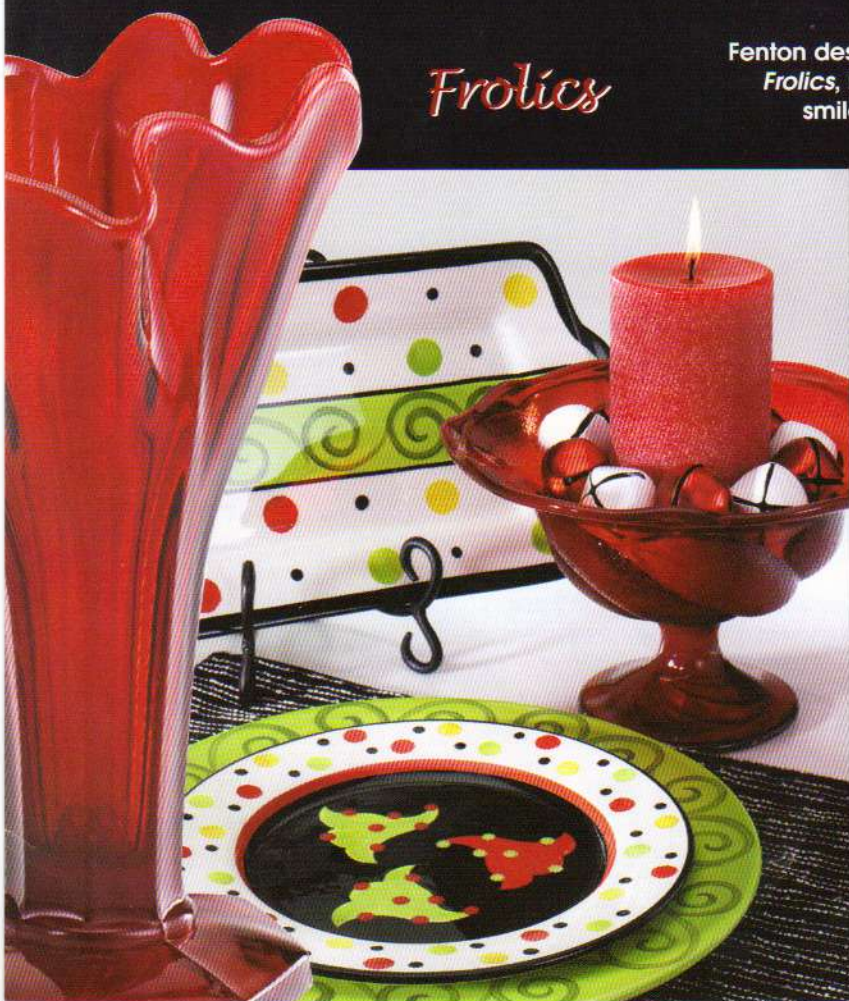

The handpainted ceramics are made of enhanced Dolomite that is sturdy enough for the dishwasher, but we recommend handwashing. High fired glazes are lead safe and perfect for food use. Imported.
