

# Blue Bird... designed by *Stacy Williams*

Designed by Stacy Williams, it is perfect casual tabletop! In classic blue and white with a sweet bird highlighted with delicate scrolls. Stacy's design features raised elements of "liquid" china paint and it is these handpainted highlights that separate our designs from the more typically flat decal art. Each piece has its own personality with varying design elements. The canisters are especially wonderful as each is different but all share the bird knobs. It is fine quality ceramic that is microwave safe.
