December 18, 2008

Dear Fenton USA Customer,

We are pleased to announce the exciting introduction of our new 2009 Collection. As you can see, there are more than 60 new pieces now available to order from Fenton USA. Our Studio and Connoisseur Collections headline our first offering of 2009. Kelsey Murphy and Robert Bomkamp introduce two new pieces for Spring, one made in Ruby Overlay and one in Burmese. Dave Fetty also returns with a uniquely colored vase called "Granite Rings," limited to only 350 pieces worldwide.

We hope you enjoy the reintroduction of our Connoisseur Collection. Fine decorating details, produced in our most collected colors, define these different creations. For many years, collectors nationwide aggressively pursued Fenton Connoisseur that was normally introduced in the late summer months. Our artists were energetic about the plan to develop new Connoisseur designs for this collection and I'm sure you will agree their energy and creativity radiates through these 5 different pieces.

As you consider your decorating, gift giving, and collecting purchases for 2009 I encourage you to consider, and pass along to all your friends, the beauty of Fenton Art Glass. Fenton is made in the USA and we all know how important supporting our American-made factories will be this coming year. We are working hard here in Williamstown, West Virginia to protect our family legacy of glassmaking. I encourage you to visit your local dealer today to learn more about our Spring 2009 product offering.

Thanks for your support of Fenton USA.
Best Regards,

Scott K. Fenton
